Explanatory notes re Summer comp draw 2023.

Under 8's will play each week at 4pm.

Boys 10's. There are 5 teams creating a bye each week. I don't like byes and a team missing out each week so one team will play two games each week. The team playing twice will be highlighted in Yellow. This game counts in competition points.

Under 12's.

We have 5 boys teams & 3 mixed.

Option 1. Remain in your pools as boys & mixed. The two bye teams each week will play each other so no team misses out on playing. This game will not count in competition points. The negative with this draw is the amount of times the mixed play each other & every third week they play a boys team anyway.

Option 2. All teams in one pool. However the top two mixed teams at the end of the season still play a final. The negative is the three mixed teams competing with the boys until the final.

I'm starting with option one & will seek feedback from those mixed teams.

Under 14's

5 teams in each pool of boys & mixed. Play in own pool however the 5th team each week will play each other in a friendly so no team misses out on playing. The friendly will not count in competition points.

Kind Regards

Bill Harrigan
